Cholera is threatening to grow worse in Kolur village. There was a suspicious case of attack on the 27th July at the work spot. The patient was removed to the village as she refused to go to the cholera shed and she died in the village next day. There was another case of cholera in the camp on the 30th among the dependants relieved in the kitchen. The Charge Officer has been directed to arrange to feed the dependants from Kolur separately.

2. The road work at Kolur is almost finished I have therefore directed to close the contal camp at Kolur and move it temporarily to Bhatrahalli. The relief workers will be put to the removal of prickly poor in Kolur and Dammur villages to enable us to keep infection isolated and watch developments. Meanwhile arrangements are being made to start a new central camp.

3. I propose to take up the repairs to the drinking water tank at Siddammanahalli referred to I.P. His. No.768, dated 27-3-1924. The Executive Engineer and the Sub Divisional Officer have been asked to arrange for the opening of the work at Siddammanahalli as early as possible. I shall send a further report after the new camp is opened.
